WHAT'S STRIKING OUR FANCY THIS MONTH

Age of Rebirth

Landmark birthdays come and go, but the urge to look fresh will always linger. Heed lessons from the master: SalonCapri hits the big 4-0 and looks ravishing with a fresh new renovation and addition.

The salon was just chosen to be one of 10 L'Oreal Professionnel Haircolor Centers in the country. (It's the only one of the bunch located outside a city's downtown area.) A sleek new "color bar" allows you to dabble in shade options with hefty swatches, while the airy, bright cutting stations feel as cushy as a personal lounge. If that isn't incentive enough, the salon is offering \$40 mani-pedis in its zenlike new space during November. After all, generosity of spirit is an essential part of aging gracefully. ■ SALONCAPRI,
