Any girl-on-the-go will tell you how difficult it can be to keep up with high-maintenance hairstyles. If you find yourself searching for a simple yet chic alternative, hop on the braided pony express. This easy-breezy style will certainly keep you going while looking good from day to night; Nicholas Penna Jr, lead stylist and owner of [SalonCapri](#) in Boston, tells Glam how to perfect the look.

- Gather hair into a ponytail at desired spot and secure with a snag-free elastic;
- Divide hair into three even sections and braid;
- Secure at the end with a snag-free elastic.
