Braid Forecast

>> Braids are everywhere! Check out what **Nicholas Penna, Jr.**, owner and lead stylist of "Best of Boston" **SalonCapri** says about these braided styles:

BFF BRAID: BIG, FANCY FRINGE

Alicia Keys

Why it's hot: It's ornate, but can be worn with casual looks.

Penna says: "This fishtail adds edge to the classic braid, and should be worn off to one side. This style looks best with tousled, mussed up locks; it gives the braid a little dose of freedom from the intricate lattice work," says Penna. "Try weaving something in to the braid; it doesn't need to look perfect or neat, it's just a fun way to add your own personal touch to the style."

PLAYTIME PIG TAILS

Taylor Momsen

Why it's hot: It's bohemian, flirty and simple.

Penna says: "Messy pigtail braids are a playful, youthful addition to the conservative styles of fall fashion, plus they look good under a hat." Penna suggests slightly teasing your strands before braiding to produce some texture that will keep the loose plait last all day.
