WHAT SUITS YOU?

Wondering which layers will work for you? We got the 411 from Nicholas Penna Jr., Owner & Lead Stylist of SalonCapri's three locations in Massachusetts and Creative Director & Founding Partner of Be Styled blowdry lounge locations.

- If you have a longer face, enhance it with layers that start at the cheekbones and frame the face down to the chin.
- A rounder face appears slimmer with long, side-swept bangs and layers that move off your cheeks.
- The square face is flattered by layers that are pulled away from the face; bangs are optional.
- If you have a heart-shaped face, consider a pixie with lots of short layers to pump up the texture.

NATURAL wonder

Naturally curly hair responds like a dream when it's cut into a wedge shape with long interior layers. To get the look, apply a mix of curl-enhancer and a hair oil to damp locks, then gently arrange with the fingers. Let hair dry by itself or use a diffuser—the less you touch it, the less likely it will revert to frizz! ALL HAIR, MAKEUP & CLOTHES STYLING BY REVLON PROFESSIONAL.
